ITAI BENJAMIN

ABOUT ME

Junior Full Stack Developer with a strong foundation in software engineering, specializing in **customer-facing and internal business applications**. Experienced in building scalable and maintainable solutions using **PHP**, **Laravel**, **React,** and **SQL**. Skilled in developing real-time systems and collaborating in agile teams. Proficient with **version control**, containerization concepts. Passionate about delivering effective solutions that improve operational efficiency.

EDUCATION

Bachelor of Science in Software Engineering
Braude College of Engineering
2020 - 2024

EXPERIENCE

Junior Full Stack Developer
KSP, Israel. April 2025 - Present
Develop and maintain customer-facing and internal retail systems using **PHP (Laravel, Slim)**, **React**, **SQL**, **Node.js**, and **Socket.io**. Built **real-time queue and order management systems**. Designed a **split-order fulfillment solution** enabling partial shipments directly from secondary warehouses. Contributed to a **warehouse packing and broadcasting system** with real-time updates, integrating **PTL shelf hardware** to indicate item quantities and shelf status. Work in an **Agile** team using **Git**, **Bitbucket/GitLab**, and **Jira**.

PERSONAL PROJECTS

People Detection in Videos
Built a system that integrates **YOLO for object detection** and **FaceNet for face recognition** to accurately identify individuals in video streams. Enhanced efficiency by implementing **Python multiprocessing** for concurrent model loading, reducing processing time. This project highlights expertise in **machine learning**, **AI models**, **Python** programming, and **video analysis**.

React Algorithm Visualizer
Developed an interactive web application using **React** that provides visual representations of algorithms such as sorting, Sudoku solving, and pathfinding. This project demonstrates proficiency in **JavaScript**, **React**, and **algorithm implementation**, emphasizing the ability to make complex computational concepts engaging and accessible.

PROGRAMMING & FRAMEWORKS

PHP · Laravel · React.js · JavaScript · Python · Socket.io · Node.js · REST APIs · jQuery · Bootstrap

DATABASES

MySQL · SQL Server · MongoDB

DEVELOPMENT TOOLS & PRACTICES

Git · Bitbucket · Jira · GitLab · Docker · Agile · RESTful APIs

OPERATING SYSTEMS

Windows · MacOS · Linux

LANGUAGES

Hebrew · English
